YCCC, in collaboration with University of York are excited to host

Materials: Timber

A 1-day event exploring timber within the context of buildings and our built heritage.

York Consortium for Craft and Conservation

Saturday, October 19th, 2024 from 10.00am – 5:30pm, Kings Manor, Exhibition Square, York YO1 7EP

Materials: Timber is a cross-disciplinary collaboration between the YCCC and the University of York, a combination of lecture, practical sessions and walking tours with the aim of enhancing the knowledge necessary to understand buildings, and the skills required for their repair and conservation.

Programme for day:

10.00am - Registration

Lecture by Joe Thompson – 'Timber-framing, **Defects and Failures and Conservation Approaches**

Practical Workshop – A hands-on experience using traditional carpenters' tools, with an opportunity to make oak framing pins

Walking Tour of the Minster Chapter House – Explore York's historic timber-framed building and learn about conservation practices

Refreshment break and talk by Rachael Baldwin-Gledhill: **Clifford's Tower: Reimagined Ruin**

4.30pm - Keynote Lecture: Prof. Michael Ramage – **Growing the Future** - *Post Catastrophic Damage, Skills Sustainability, and Green Credentials: Is Wood the Best Choice?*

Speakers

Joe Thompson of Sussex Oak and Iron is carpenter in residence at the Weald and Downland Living Museum.

Rachael Baldwin-Gledhill: Director of Lantern Heritage Consultancy Ltd. Independent Heritage Project Management for built heritage, Museums & Galleries

Dr Michael Ramage leads the Centre for Natural Material Innovation at Cambridge and is founding partner of Light Earth Designs, specialising in sustainable building solutions using local resources.
